SKILLS SUMMARY

- Languages:** C, C++, Python, JavaScript
- Libraries & Frameworks:** NumPy, Pandas, Matplotlib, Scikit-learn, OpenCV, Scikit-image, NodeJS, React
- Tools/Platforms:** VS CODE, Antigravity, Git, GitHub, Docker, Kubernetes, Kaggle
- Backend:** MySQL, PostgreSQL, RESTful APIs
- Soft Skills:** Team Collaboration, Problem-Solving, Adaptability, Communication, Project Management

PROJECTS

- Smart Classroom AI Dashboard| [GITHUB](#)May 2026
- Developed a real-time AI-powered classroom monitoring system using computer vision to detect student occupancy, analyze classroom zones, and dynamically control fans and lights based on the number of students, reducing unnecessary energy consumption.
 - Python, YOLOv8, OpenCV, Flask, Flask-SocketIO, SQLite, HTML5, CSS, JavaScript, and Chart.js.
 - Can be expanded with IoT-based hardware integration, predictive energy optimization, facial recognition/attendance, multi-classroom monitoring, cloud analytics, and AI-driven insights for institutional resource management.
- Edu-Ninja| [GITHUB](#)Sep 2025
- Build an innovative educational platform designed to enhance learning experiences for middle-school students through interactive quizzes and educational games, promoting effective and engaging learning.
 - HTML, CSS, JavaScript, React.js, and Node.js. were used in the building of this project.
 - Can be expanded with personalized learning paths, AI-based recommendations, progress tracking, and interactive assessments to create a comprehensive digital learning platform.
- Floods in India | [GITHUB](#)Apr 2025
- Designed an informative website showcasing the history of floods in India through detailed timelines, key events, and interactive visualizations to raise awareness and promote disaster preparedness.
 - HTML, CSS, and JavaScript were used in the building of this project.
 - Can be developed into a real-time disaster awareness platform with live flood alerts, interactive maps, weather-data integration, and emergency-resource information.
- E-Commerce Shopping Website | [GITHUB](#)Dec 2024
- Structured a responsive multi-page e-commerce website featuring product listings, shopping cart, login/signup authentication, and a visually interactive home page using HTML, CSS, JavaScript.
 - Applied custom UI styling and animations with CSS and Font Awesome to create a clean, brand-like user experience, including sliders, modals and interactive navigation menus.
 - Utilized JavaScript for dynamic content handling and event-driven interactions, enabling functional features such as search bar transitions, wish list toggles and responsive layout behavior across devices.

CERTIFICATIONS

- Innov8x Certificate of Participation — 18-Hour HackathonSep 2025
- Mastering Linux by ShikshaOct 2024
- Complete Python Course by UdemyOct 2024
- Effective Time Management by Master UnionSep 2024

ACHIEVEMENTS

- Runner-up in a hackathon at IIT Ropar, competing against participants from universities across India.Aug 2024
- Organized and coordinated a tech workshop with participation from 20 schools across Kashmir
Burn Hall SchoolSep 2023

EDUCATION

- Lovely Professional University**Punjab, India
Bachelor of Technology - Computer Science and EngineeringSince Aug 2024
- Burn Hall Hr. Sec. School**Srinagar, J&K
Intermediate – 90%Jun 2022 – Mar 2024
